DIARY NOTES

DD/S

29 September 1971

25X1A

25X1A

1. [REDACTED] I mentioned to the Executive Director that we had a mixup with [REDACTED] Chief, TSD to holler - a statement attributed to Chief [REDACTED] I suggested that I should talk to DD/P and clue him on the real estate briefing. Colonel White agreed suggesting that DD/P knew of the earlier intended briefing for the Director. (Investigation revealed that Chief, TSD moved from information completely in error.)

2. "Inlow" Space: [REDACTED] brought in a paper which requested temporary allocation of "Inlow" space on 5E corridor to [REDACTED] Ops Center. LSD had planned to agree and take the present [REDACTED] Ops Center space for initial SIPS management center allocation. Both pieces ultimately would return to present use. After much discussion I agreed.

25X1A

3. Queries from Executive Director: The Executive Director telephoned to ask (a) if we could fit any more into the Director's garage, and (b) if we would get some action to paint or touch up the doors in the Executive Dining Room which had been remarked by the Director. I subsequently talked to [REDACTED] on both counts. I asked him to check the rationale for parking of O/F and O/S vehicles and also to look at the whole DCI area for needed paint treatment.

*D/has pending note of AG's on vehicles*

4. Fact Book for Recruiters: I reviewed the OTR paper which is exclusively questions and answers and found it quite far short of what I had in mind. I discussed it with [REDACTED] who had the same reaction but pointed out his feeling that OTR was not completely sure just what was wanted. After some discussion he agreed to go over the matter with ADTR and to suggest that [REDACTED] be put on this on a crash basis. He later confirmed that this was underway with [REDACTED] to be given assistance by a couple of CT's. What is to be produced (by 6 October) so it can be shown to

the Executive Director before his departure is a text approach [REDACTED]  
had also spoken with [REDACTED] and found his reaction to the first effort  
to be similar to ours.

I later had very brief words with Mr. Fisher and found that he  
believed the Director expected only questions and answers which would be  
held by recruiters and not therefore be available to pass out. We agreed  
we must talk further since he had to rush to a meeting with MAG.

5. Lunch with Support Directorate MAG Members: [REDACTED]  
and I had lunch on this date with Support Directorate members of MAG  
including [REDACTED] who had completed his tour. We learned that most  
items are generated by members themselves - in fact, MAG has no  
management generated items on the agenda at present. Time is a major  
problem - I told them of the Deputies Meeting agreement to grant a duty  
day per month for MAG sessions. We also were told that Midcareer Course  
and lower age criteria were not adhered to in all cases. We might take  
these points into account in future selections, especially the age.
